

PARTNERS and BENEFICIARIES

According to countries, the stakeholders will have different names. However, institutions commonly involved are: Fisheries administration, National Navy, Maritime Affairs / Coast Guard, Customs, Various Ministries with links with maritime management, Industrial fishing units, Maritime artisanal fishing units, Industrial fishermen associations, Traditional fishermen associations, FCWC and fisheries regional and international organizations, Technical and financial partners.

The direct beneficiaries of the project are the administrations in charge of the management of fisheries, coastal surveillance, and national defence. The private stakeholders including ship owners and the consignees of vessels are also partners in the project.

SITUATION EXPECTED AT THE END OF THE PROJECT

At the end of the project, the sub region has a powerful instrument to provide information in real time, to coordinate the interventions and to contribute to the eradication of IUU fishing in the sub region.

A strategy and an operational framework supported by an agreement between States strengthen cooperation in fisheries control and surveillance.
